

Summer Conference 2014
Oxford University

Neuroscience

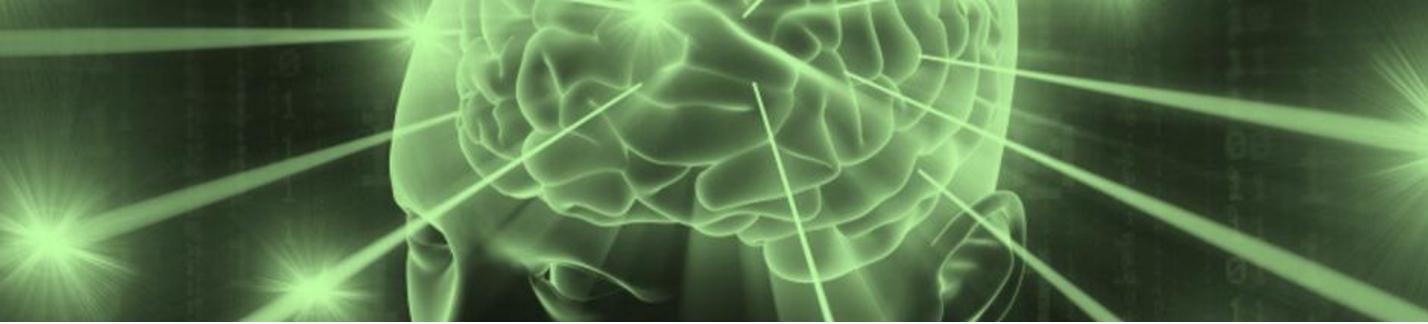

*Learning to Succeed
through Emergenetics*

In partnership with

emergenetics
INTERNATIONAL
Moving Thinking Forward™

THE CONFERENCE YOU CANNOT AFFORD TO MISS

The study of Neuroscience is continually evolving, with intriguing and fascinating facts emerging every week. Each day we learn more about the functioning of our brains – at work, in education, at home.

This emerging knowledge can be applied in all kinds of situations. During the conference, Kudos Training and Emergenetics will take delegates on a journey of understanding about the principles of Neuroscience.

The learning will be related to how we can be more effective as individuals, how we can improve performance at work and will reveal how our education system could be improved.

Delegates can be assured that their knowledge of Neuroscience will deepen ... each day of the conference will reveal fresh new insight into key areas of our lives: home, work and education.

During the conference, the Emergenetics team will present delegates with an exciting programme, taking us through the Emergenetics development and experience. Each delegate has the opportunity to receive a personal neuroscience based profile allowing them to understand their own unique way of thinking and behaving.

11th – 13th August 2014

Day 1

- Relating challenges in Education to research in Neuroscience
- Insight into how science could address some of the challenges
- Bringing the opportunity to life with a real case study

Day 2

- New understanding about how we all think and behave
- Each delegate receives a personal neuroscience based profile
- Delegates will understand how to use their profile to be more effective at home and in the workplace

Day 3

- How Neuroscience is destroying workplace myths
- New insight into how leaders and organisations can be more effective
- How leaders and managers can be more resilient and creative at work

Summer Conference 2014
Oxford University

In partnership with

Succeed through Emergenetics

Venue: Harris Manchester College, University of Oxford
Date: 11th to 13th August 2014
Price: £1,295 for full conference (or £495 for one day)

*The first 40 delegates to book for the full three-day conference will qualify for three nights accommodation from Sunday 10 to Tuesday 12 August 2014 inclusive at Harris Manchester College Campus, free of charge. The conference will require you to complete an Emergenetics Profile prior to the start of the conference. Prices shown above includes the cost of this Profile.

For further details about the profile, please go to www.emergenetics.com. If you would like to book a place at the conference [click here](#)
